Where we store your data

- Your personal data is stored in servers in the European Union and is fully protected under EU legislation

How we secure your data

We take all necessary measures to keep your personal data safe and secure through adequate safeguards in place. Data-in-transit is encrypted using Secure Sockets Layer (SSL) technology, which encrypts information before it is exchanged through the Internet, between the user's device and T.A.A.S systems. This ensures the data is incomprehensible to any unauthorized users and guarantees the confidentiality of the information transmitted. Please note, however, that these protections do not apply to information you choose to share in public areas such as third-party social networking sites.

- **Data retention:** We ensure that your personal data shall not be retained for longer than necessary, as determined by our Data Retention Policy to reduce the likelihood/severity of a data breach
- **Policy Violation:** Any breach of security or policy violation leading to the accidental, deliberate or unlawful destruction, loss, alteration, or access to personal data will be reported to T.A.A.S management for immediate action. When a personal data breach is likely to result in a high risk to the rights and freedoms of natural persons, T.A.A.S will contact the affected individuals without undue delay and report to the Regulatory Authority (NITDA) within 72 hours of discover.

Your rights as a Data Subject

- As the owner of personal data (Data Subject), you have the right to ask us the following:
- To provide you with a copy of the personal data we keep on you
- To amend and correct incorrect data
